

West Valley Genealogical Society

The West Valley Genealogical Society serves Genealogists throughout the Northwest Valley area of Maricopa County, Arizona. The WVGS is a non-profit corporation dedicated to researching, recording, and sharing genealogical & ethnic information.

The West Valley Genealogical Society/Library, Youngstown, AZ (www.azwvgs.org) has on its website their catalog of 14,000 books, hundreds of CD's and obituaries of people who have died in Arizona, but can be from other states and countries. We will copy pages from our books for people interested in a book or obituary. We do ask a minimal charge for this service. I am the Obituary Chairperson and have over 50,000 obituary index online, plus memorial folders, church books, etc. about people living/died in Arizona and elsewhere which is not online.
